JOURNAL OF
Inorganic Biochemistry

Volume 54, Number 1 1994

Contents

W. R. HARRIS and Y. CHEN (St. Louis, Missouri)
Electron Paramagnetic Resonance and Difference Ultraviolet Studies of Mn^{2+} Binding to Serum Transferrin 1

D. R. LOPEZ (Granada, Spain)
Study of Various Metal Complexes of the Two Geometric Isomers of 1-*p*-Methoxyphenyl-4-Hydroximinomethylimidazole 21

S. STOJKOVSKI, B. D. JAMES, R. PAYNE, and R. J. MAGEE (Bundoora, Australia)
Electrochemical Study of Mo(VI) and Cu(II) Uronates 33

A. R. KHOKHAR, S. AL-BAKER, and Z. H. SIDDIK (Houston, Texas)
Synthesis and Antitumor Activity of 1,2-Diaminocyclohexane Platinum(VI) Complexes 39

V. SUBRAMANIAM and P. E. HOGGARD (Fargo, North Dakota)
L-Glutamate Complexes of Chromium(III) 49

Y. IAMAMOTO, O. A. SERRA (Ribeirao Preto, Brazil) and Y. M. IDEMORI (Belo Horizonte, Brazil)
Iron(III) Porphyrins Atropisomers as Catalysts for Cyclohexane Hydroxylations. A Biometical System 55

S. S. MARWAHA (Patiala, India), J. KAUR, and G. S. SODHI (Delhi, India)
Organomercury(II) Complexes of Kojic Acid and Maltol: Synthesis, Characterization, and Biological Studies 67

P. A. M. WILLIAMS and E. J. BARAN (La Plata, Argentina)
The Interaction of the VO^{2+} Cation with S-Methyl-Glutathione 75

Volume 54, Number 2 1994

Contents

S. NAHAR and H. A. TAJMIR-RIAHI (Québec, Canada)
A Comparative Study of Fe(II) and Fe(III) Ions Complexation with Proteins of the Light-Harvesting Complex of Chloroplast Thylakoid Membranes 79

ASIMA PATTANAIK, C. FRANK SHAW III, DAVID H. PETERING (Milwaukee, Wisconsin), JUSTINE GARVEY (Pasadena, California), ALAN J. KRAKER (Ann Arbor, Michigan)
Basal Metallothionein in Tumors: Widespread Presence of Apoprotein 91

YOUN SOO SOHN (South Korea), KWAN MOOK KIM, JONG HWA JEONG, DONG YOUN NOH, CHONG OCK LEE, and SANG UN CHOI (Seoul, Korea)
Synthesis, Structure, and Antitumor Activity of 1,3-Dithiol-and 1,3-Dithiolan-2-Ylidenemalonatoplatinum (II) Complexes 107

HARMON B. ABRAHAMSON and HENRY C. LUKASKI (Grand Forks, North Dakota)
Synthesis and Characterization of Iron Stearate Compounds 115

G. STOCHEL, P. MARTINEZ, and R. VAN ELDIK (Wittcn, Germany)
Kinetics and Mechanism of the Oxidation of Glutathione by Hexacyanoferrate (III) in Aqueous Solution 131

M. ANGELES DÍAZ DÍEZ, FERNANDO J. GARCÍA BARROS, ALVARO BERNALTE GARCÍA, and CRISTÓBAL VALENZUELA CALAHORRO, (Badajoz, Spain)
Coordination of Mercury (II) to Carbohydrate a-Amino Acids Derived from Glucose and Mannose 141

ZHONG-XIANG HUANG, HONG-YU HU, WEI-QIANG GU, and GUANG WU (Shanghai, Peoples Rep. of China)
Study on Model Clusters of Metallothionein: Structure and it's Kinetics of Zinc Transfer Reaction to Apo-Carbonic Anhydrase 147

Volume 54, Number 3 1994

Contents

K. T. SUZUKI, K. YAMAMOTO, Y. OGRA (Chiba, Japan), S. KANNO and Y. AOKI (Tsukuba, Japan)
Mechanisms for Removal of Copper from Metallothionein by Tetrathiomolybdate **157**

F. E. ROSSETTO and E. NIEBOER (Ontario, Canada)
The Interaction of Metal Ions with Synthetic DNA: Induction of Conformational and Structural Transitions **167**

P. PATEL and P. K. BHATTACHARYA (Baroda, India)
Cu(II) Binary and Mixed-Ligand Binuclear Complexes Involving Histidine as Binucleating Ligand **187**

J. G. MULLER, S. J. PAIKOFF, S. E. ROKITA and C. J. BURROWS (Stony Brook, New York)
DNA Modification Promoted by Water-Soluble Nickel(II) Salen Complexes: A Switch to DNA Alkylation **199**

P. K. WU, Y. QU, B. VAN HOUTEN and N. FARRELL (Burlington, Vermont)
Chemical Reactivity and DNA Sequence Specificity of Formally Monofunctional and Bifunctional Bis(Platinum) Complexes **207**

N. DODOFF, K. GRANCHAROV, R. GUGOVA and N. SPASSOVSKA (Sofia, Bulgaria)
Platinum(II) Complexes of Benzoic- and 3-Methoxybenzoic Acid Hydrazides, Synthesis, Characterization, and Cytotoxic Effect **221**

Volume 54, Number 4 1994

Contents

G. MENDOZA-DÍAZ and J. IRETA-MORENO (Guanajuato, Mexico)
Synthesis and Characterization of Zinc Mixed Complexes with Nalidixate Anion and (N-N) Donors **235**

T. P. GELADOPOULOS and T. G. SOTIROUDIS (Athens, Greece)
Interaction of Aluminum Ions with Phosvitin **247**

G. CONDORELLI, L. L. COSTANZO, G. DE GUIDI, S. GIUFFRIDA, E. RIZZARELLI and G. VECCHIO (Catania, Italy)
Inhibition of Photohemolysis by Copper (II) Complexes with Sod-Like Activity **257**

C. L. CHEN and P. D. WHANGER (Corvallis, Oregon)
Interaction of Selenium and Arsenic with Metallothionein: Effect of Vitamin B_{12} **267**

A. BISHAYEE and M. CHATTERJEE (Calcutta, India)
Increased Lipid Peroxidation in Tissues of the Catfish *Clarias batrachus* following Vanadium Treatment: In Vivo and In Vitro Evaluation **277**

M. I. OSHTRAKH, E. A. KOPELYAN, V. A. SEMIONKIN (Sverdlovsk, Russian Federation), B. LIVSHITS, V. E. KRYLOVA, T. M. PROSTAKOVA and A. A. KOZLOV (Moscow, Russian Federation)
An Analysis of Iron-Dextran Complexes by Mössbauer Spectroscopy and Positron Annihilation Technique **285**

C. EXLEY (Staffordshire, United Kingdom), NICHOLAS C. PRICE (Scotland, United Kingdom) and J. D. BIRCHALL (Staffordshire, United Kingdom)
Aluminum Inhibition of Hexokinase Activity In Vitro: A Study in Biological Availability **297**

Author Index **305**

Subject Index **307**
